Supervisor Moore thanked everyone for attending and hoped this informal public meeting will quell the rumors about town and settle the gravel pit issue in West Parishville. He asked the Planning and Zoning Boards to take over the meeting and bring everyone up to date on the issue.

Zoning Chairman Tremper started by giving an overview of the history of the pits that have been permitted in the West Parishville area. Going forward, the new Land Use and Development law that was recently passed in 2013 will need to be addressed in each of these gravel pits.

Planning Board Chairman Frederick Wilhelm agreed that the new law passed in 2013 creates a unique situation for the existing and proposed gravel pits in the Town of Parishville.

After much discussion and input from Richard and Timothy Randall seeking a fair system for all the gravel pits, it was decided to have the 3 existing pits in West Parishville start the process over by reapplying.

A motion was made by Councilwoman Tremper and seconded by Councilman Cook to waive the application fee for the 3 existing gravel pits in the West Parishville area. This would include one pit each for Richard Randall, Timothy Randall and Charles Cameron.

All in favor.

The meeting informally ended at 7:52 PM.

Respectfully submitted by
Town Clerk Connie Maguire
